I've not done further editing/writing yet. I have pulled the background materials and have wanted to make sure I understood where we are in these interactions for messaging.

I'll try to do my part today as seems quiet ☺

So I'm thinking a somewhat more explanatory presentation is needed. I'm OK working to do that – probably needing some back and forth with Paul as to messaging. But before doing any heavier editing, thought I would bounce this question off the group and managers.

Thanks, Dustin. My laptop isn't great about updating against SharePoint, but I've now opened it again with the browser version and see them. Paul White was going to review next, and I'm making some adjustments in parallel, in part to note that they do indicate some willingness to go further 'if EPA wishes to discuss'.

So Kris and John can hold off some. Viktor is CDO, and just as well until Paul has reviewed and I've cleaned up the revisions.

I sent the following to a subset of this list last Thursday, have not had any suggestions back. I need to go over the draft plan from Ramboll again, to be sure I'm characterizing it accurately, determine if I need to fill out or remove the one placeholder. But I did want to let everyone know I'd written this, give a nudge for review.
